Topics			
see/use checklist			

History

#1 - 2019-09-03 21:59 - cboltz

- Private changed from Yes to No

#2 - 2019-10-01 07:05 - mcaj

- Checklist changed from [] Questions and answers from the community, [] status reports about everything, [] review old tickets to [] Questions and answers from the community, [] status reports about everything, [] review old tickets, [] Helios platform not compatible with leap 15

About the Helios platform, After the update of the server sarabi the service helios server stop working.

- The update of the server was need it. 42.3 is EoL since Jun 2019.
- The project does not look much live <https://heliosvoting.org/> last commit in Github was in April 2019.
- The last update in package was a year ago <https://build.opensuse.org/package/show/openSUSE:infrastructure/elections.opensuse.org/helios-server>

I tried to fix it in <https://build.opensuse.org/project/show/home:mcaj:branches:openSUSE:infrastructure/elections.opensuse.org> but it does not work. I spoke with Tomas Chvatal from SUSE package team and there is no way to fix the package without active develop work on the source code.

So what to do with the service ?

#3 - 2019-10-01 22:19 - cboltz

- File 2019-10-01-heroes-meeting.txt added

- Status changed from New to Closed
