Description

Observation

openQA test in scenario opensuse-Tumbleweed-NET-x86_64-zdup-Leap-42.3-gnome@64bit_cirrus fails in boot_to_desktop

Acceptance criteria

- AC1: The "Show on start" checkbox of the opensuse-welcome popup dialog is unticked.
- AC2: opensuse-welcome popup dialog is closed.
- AC3: The change is verified in all upgrade scenario from Leap to Tumbleweed.

Reproducible

Fails since (at least) Build 20190909 (current job)

Expected result

Last good: 20190907 (or more recent)

Further details

Always latest result in this scenario: latest

Ready to merge.

#4 - 2019-09-12 07:29 - dimstar
Not sure if you'd prefer a different issue, but I'd think we should collect all those oS-welcome things together.
So, there are some more cases:

- https://openqa.opensuse.org/tests/1030403#step/multi_users_dm/17

The multi-users-dm test creates new users and logs in as a different user. Obviously, oS-welcome is shown (the 'do-no-show from earlier was for the initial user)

- https://openqa.opensuse.org/tests/1030414#step/reboot_icewm/8

LXQt also shows oS-welcome

#5 - 2019-09-16 14:45 - StefanBruens

LXQt is already covered by https://github.com/os-autoinst/os-autoinst-distri-opensuse/pull/8412

https://openqa.opensuse.org/tests/1033059

#6 - 2019-09-16 17:46 - ggardet_arm

- Status changed from In Progress to Feedback

PR merged.

#7 - 2019-09-17 13:04 - StefanBruens

For the multi_users_dm test, see https://github.com/os-autoinst/os-autoinst-distri-opensuse/pull/8451

#8 - 2019-10-11 05:17 - okurz

This is an autogenerated message for openQA integration by the openqa_review script:

This bug is still referenced in a failing openQA test: autoyast_reinstall_gnome

https://openqa.opensuse.org/tests/1052630

To prevent further reminder comments one of the following options should be followed:

1. The test scenario is fixed by applying the bug fix to the tested product or the test is adjusted
2. The openQA job group is moved to "Released"
3. The label in the openQA scenario is removed

#9 - 2019-10-25 05:29 - okurz

- Follows action #55661: [opensuse][u] test fails in several modules after booting and login - "openSUSE Welcome" not handled (WAS: test fails in first_boot) added

#18 - 2019-11-14 08:16 - SLindoMansilla
I think when module _first_boot_ is addressed on create_hdd* scenarios, this will not be necessary.
See #55661

- Status changed from New to Workable
- Target version set to Milestone 30
- Estimated time set to 42.00 h

ATM there is a workaround with EXCLUDE_MODULES=opensuse_welcome
so let's work on this anytime soon

the goal should be to not have "opensuse_welcome" scheduled, unless explicitely scheduled

#22 - 2020-04-14 14:35 - zluo
checked TW, we have actually the only case with opensuse_welcome which makes trouble.

#23 - 2020-04-15 08:49 - SLindoMansilla

All this jobs are scheduling the module opensuse_welcome

03

- TW x86_64: https://openqa.opensuse.org/tests/overview?arch=&machine=&modules=opensuse_welcome&distri=microos&distri=opensuse&version=Tumbleweed&build=20200413&groupid=1#
- Leap 15.2 x86_64: https://openqa.opensuse.org/tests/overview?arch=&machine=&modules=opensuse_welcome&distri=opensuse&version=15.2&build=626.2&groupid=50#

OSD

- Desktop: none found https://openqa.suse.de/tests/overview?arch=&machine=&modules=opensuse_welcome&distri=sle&version=15-SP2&build=176.1&groupid=119#

2021-05-09
will create YAML schedule at https://github.com/os-autoinst/os-autoinst-distri-opensuse/blob/master/schedule/migration/zdup-Leap-42.3-gnome.yaml
add later a setting YAML_SCHEDULE=schedule/migration/zdup-Leap-42.3-gnome.yaml for test suite.

to check later:
http://f40.suse.de/tests/7442#live

YAML_SCHEDULE=schedule/migration/zdup-Leap-42.3-gnome.yaml added in test suite zdup-Leap-42.3-gnome.
check this later on O3 then

https://openqa.opensuse.org/tests/1243241#settings is there and opensuse_welcome is excluded as expected.
