History

#1 - 2019-09-12 09:52 - SLindoMansilla

- Subject changed from windows 10 dual boot tests: HDD no longer found to [functional][u] windows 10 dual boot tests: HDD no longer found
- Category set to Infrastructure
- Assignee set to SLindoMansilla

Those qcow2 weren't in the fixed directory.
I can only find the following on O3:

```
./fixed/windows-10-x86_64-1511@64bit_win.qcow2  
./fixed/windows-10-x86_64-1511@uefi_win.qcow2  
./windows-10-x86_64-1903@64bit_win.qcow2
```

[windows-10-x86_64-1903@uefi_win.qcow2](#) is missing (UEFI)

Investigating

#2 - 2019-09-12 10:44 - SLindoMansilla

Those qcow2 images are created by two jobs in group **Windows**
<https://openqa.opensuse.org/tests/overview?distri=windows&version=10&build=1903&groupid=22>
They are failing

#3 - 2019-09-12 13:50 - SLindoMansilla

- Priority changed from Urgent to High

I tried to fix it on my openQA instance qemu-4G but it doesn't have enough memory and the job times out always anywhere.
Someone needs to take over.

#4 - 2019-09-12 13:50 - SLindoMansilla

- Priority changed from High to Urgent

#5 - 2019-09-16 12:13 - mloviska

Hi Sergio,

feel free to close the ticket

<https://openqa.opensuse.org/tests/overview?distri=windows&version=10&build=1903&groupid=22>

#6 - 2019-09-16 12:21 - SLindoMansilla

- Related to action #56918: test fails in boot_windows - windows 10 desktop does not appear added

#7 - 2019-09-16 12:21 - SLindoMansilla

- Status changed from New to Resolved

- Priority changed from Urgent to High

Awesome, thanks

#8 - 2019-09-16 12:23 - SLindoMansilla

- Related to action #51221: upgrade windows 10 image in openQA added

#9 - 2019-09-17 08:22 - SLindoMansilla

- Subject changed from [functional][u] windows 10 dual boot tests: HDD no longer found to [functional][y] windows 10 dual boot tests: HDD no longer found

- Assignee changed from SLindoMansilla to mloviska

That was resolved by mloviska
