### [SLE][Migration][SLE12SP5][Improvement]: using setting instead of fix value in AY file

2019-09-25 01:17 - coolgw

<b>Status:</b>	Resolved	<b>Start date:</b>	2019-09-25
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	tinawang123	<b>% Done:</b>	100%
<b>Category:</b>	Bugs in existing tests	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>			
<b>Difficulty:</b>			
<b>Description</b>			
Base rodion's comments, we can using setting instead of fix value in AY file. <a href="https://github.com/os-autoinst/os-autoinst-distri-opensuse/pull/8479">https://github.com/os-autoinst/os-autoinst-distri-opensuse/pull/8479</a> We can using 390 file for first try.			

#### History

##### #1 - 2019-09-29 10:29 - okurz

- Category set to Bugs in existing tests

##### #2 - 2019-10-09 02:26 - coolgw

- Assignee set to tinawang123

##### #3 - 2019-10-12 08:38 - tinawang123

- Status changed from New to Workable

- % Done changed from 0 to 70

It can be used like:

```
/usr/share/openqa/script/clone_job.pl --from http://openqa.suse.de --host http://openqa.suse.de 3452846 --skip-download --apikey 027124EEEF43FE4A --apisecret ED9A926F3182D8BF AY_EXPAND_VARS=SCC_URL,LOADER_TYPE SCC_URL=http://migration-smt.suse.de _GROUP=0
```

autoyast profile:

[https://openqa.suse.de/tests/3471371/file/autoyast\\_profile.xml](https://openqa.suse.de/tests/3471371/file/autoyast_profile.xml)

##### #4 - 2019-10-12 08:39 - tinawang123

- Status changed from Workable to In Progress

##### #5 - 2019-10-15 08:20 - tinawang123

Add Rodin's comments:

yutao wang Now I think I got it, the only trick you could do is trying to set some urls to empty string

yutao wang But I'm not sure if that's going to work. Alternative would be to inject whole section, so your injected variable will contain xml tags too, e.g.

URL\_PART1='url1url2' and URL\_PART2='url3

but that will be less transparent

##### #6 - 2019-10-16 06:33 - tinawang123

I have tested the profile like:

""

{{URL1}}

{{URL2}}

""

AY\_EXPAND\_VARS=URL1,URL2

URL1=[http://dist.suse.de/install/SLP/SLE-12-SP5-Live-Patching-LATEST/x86\\_64/DVD1/](http://dist.suse.de/install/SLP/SLE-12-SP5-Live-Patching-LATEST/x86_64/DVD1/)

URL2=[http://dist.suse.de/install/SLP/SLE-12-SP5-WE-LATEST/x86\\_64/DVD1/](http://dist.suse.de/install/SLP/SLE-12-SP5-WE-LATEST/x86_64/DVD1/)

And:

AY\_EXPAND\_VARS=URL1,URL2  
URL1=[http://dist.suse.de/install/SLP/SLE-12-SP5-Live-Patching-LATEST/x86\\_64/DVD1/](http://dist.suse.de/install/SLP/SLE-12-SP5-Live-Patching-LATEST/x86_64/DVD1/)  
URL2=  
[https://openqa.suse.de/tests/3482015/file/autoyast\\_profile.xml](https://openqa.suse.de/tests/3482015/file/autoyast_profile.xml)

It can work.

I think we can use this method to reuse our autoyast profile

**#7 - 2019-10-21 02:04 - tinawang123**

- *Status changed from In Progress to Resolved*

- *% Done changed from 70 to 100*
