Description			
Observation			
openQA test in scenario sle-15-SP2-Installer-DVD-s390x-yast2_ncurses@s390x-kvm-sle12 fails in yast2_snapper_ncurses			
It seems that the solution for the cause of the failure on yast2_snapper_ncurses already exists as it appears on [1]. i am not aware how exactly needles are processed but seems that the needle yast2_snapper-show_testdata-gnome-20190215 should be the match.

Test suite description			
Maintainer: zluo, riafarov Test for yast2 UI, ncurses only. Running on created gnome images which provides both text console for ncurses UI tests as well as the gnome environment for the GUI tests.			
Reproducible			
Fails since (at least) Build 20.3			
Expected result			
Last good: (unknown) (or more recent)			
Further details			
Always latest result in this scenario: latest
