History

#1 - 2019-10-15 20:29 - jlausuch

- Description updated

#2 - 2019-10-16 08:13 - pcervinka

Seems like SUT is quite slow and needle for password is matched earlier before it is displayed.
Screen from previous password prompt is matched.

#3 - 2019-10-17 05:52 - pcervinka

My bad I confused it with another failure on ppc kdump. but with encrypted fs. I will create new poo for it.

- Related to action #57329: [kernel][functional] PowerVM console is not active all the time added

#5 - 2019-10-30 11:35 - pcervinka

- Status changed from Workable to Feedback

Issue was caused by missing grub needle, which was not matched because rec-connect to console was slow.
This should be fixed by [#57329](#), which implemented persistent console connection.

#6 - 2019-10-31 12:24 - pcervinka

- Status changed from Feedback to Resolved

Latest failed test restarted after PR merge, looks fine <https://openqa.suse.de/tests/3542703#>.
