**Description**

Observation

openQA test in scenario sle-15-SP1-Server-DVD-Updates-x86_64-mau-extratests-desktop@64bit fails in yast2_lan_restart

**Test suite description**

The test is pressing ok and close keys without checking it worked - this failed above. May be sporadic

- Subject changed from yast2_lan_restart may need to slow down to [sle][functional][y][sporadic] yast2_lan_restart may need to slow down

https://openqa.suse.de/tests/latest?arch=x86_64&distri=sle&flavor=Server-DVD-Updates&machine=64bit&test=mau-extratests-desktop&version=15-SP1#next_previous

I would say now it becomes sporadic.
