

## openQA Tests - action #60332

### [desktop][sle15sp2] test fails in first\_boot

2019-11-27 10:24 - zcjia

<b>Status:</b> Resolved	<b>Start date:</b> 2019-11-27
<b>Priority:</b> Urgent	<b>Due date:</b>
<b>Assignee:</b> okurz	<b>% Done:</b> 0%
<b>Category:</b> Bugs in existing tests	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	
<b>Difficulty:</b>	
<b>Description</b>	
<b>Observation</b>	
<p>When we first time login, gnome-software pops up polkit window for authentication, this is a product bug, but we want to workaround this ASAP for the staging tests.</p> <p>I propose following workaround:</p> <p>After handle_login, we do a ensure_unlocked_desktop. This should not cause problems for normal installations.</p> <p>For our problem, ensure_unlocked_desktop contains code to deal with tag authentication-required-user-settings.</p> <p>openQA test in scenario sle-15-SP2-Online-C-Staging-x86_64-gnome@64bit fails in <a href="#">first_boot</a></p>	
<b>Test suite description</b>	
Maintainer: okurz	
<p>The standard scenario where we mainly just follow installation suggestions without any adjustments as long as the default desktop is gnome.</p>	
<b>Reproducible</b>	
Fails since (at least) Build <a href="#">C.104.1</a>	
<b>Expected result</b>	
Last good: <a href="#">C.101.1</a> (or more recent)	
<b>Further details</b>	
Always latest result in this scenario: <a href="#">latest</a>
