- Description updated

#3 - 2019-12-06 08:20 - okurz

First PR merged. There is a new "investigation" tab in openQA for every failed job, e.g. <https://openqa.opensuse.org/tests/1104592#investigation> . Currently it shows the "last good" and a diff. I hope you like it and it makes test failure review easier.
