

openQA Tests - action #60689

curl (7) couldn't connect to server, upload log to 10.0.2.2:20233 failed

2019-12-05 03:35 - yosun

Status:	Rejected	Start date:	2019-12-05
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Bugs in existing tests	Estimated time:	0.00 hour
Target version:	QE Kernel Done		
Difficulty:			

Description

From this snapshot could see test fail in upload log part, and reply curl (7) couldn't connect to server. Seems this upload blocked by firewall or something in osd. It could reproduced by retrigger, and some previous run could also shows that. Reproducible not always but with high rate to trigger this problem.

https://openqa.suse.de/tests/3661504#step/generate_report/10

Observation

openQA test in scenario sle-15-SP2-Online-aarch64-xfstests_xfs-generic-101-200@aarch64 fails in [generate_report](#)

Test suite description
