**Description**

**Observation**

Since registration came back to full media, the current tests need to be adapted to the new situation:

- Full media allows offline (no internet) installation
- In general, tests with Full media need to skip registration
  - In some cases, registering with Full media should be covered
- Modules need to be manually selected when skipping registration.

**Reproducible**

Example from **scenario sle-15-SP2-Full-x86_64-skip_registration+workaround_modules@64bit**

- Fails since Build 104.1
- Current occurrence build 108.1: [https://openqa.suse.de/tests/3718352/modules/partitioning/steps/1](https://openqa.suse.de/tests/3718352/modules/partitioning/steps/1)

**Expected result**

**sle-15-SP2-installer-DVD-x86_64-Build38.6-skip_registration+all-packages-iso@64bit**: [https://openqa.suse.de/tests/3394510](https://openqa.suse.de/tests/3394510)
