

openQA Tests - action #62339

[kernel][ltp] <syscall> slept too long failures in VMs

2020-01-20 08:58 - rpalethorpe

Status:	Rejected	Start date:	2020-01-20
Priority:	Low	Due date:	
Assignee:		% Done:	0%
Category:	Bugs in existing tests	Estimated time:	0.00 hour
Target version:	QE Kernel Done		
Difficulty:			
Description			
Sometimes timing tests fail with this, especially on ARM. As we are running the tests in VMs on hosts with lots of contention, this is most likely caused by the environment.			

History

#1 - 2020-02-04 07:13 - okurz

This is an autogenerated message for openQA integration by the openqa_review script:

This bug is still referenced in a failing openQA test: ltp_controllers

<https://openqa.suse.de/tests/3852512>

To prevent further reminder comments one of the following options should be followed:

1. The test scenario is fixed by applying the bug fix to the tested product or the test is adjusted
2. The openQA job group is moved to "Released"
3. The label in the openQA scenario is removed

#2 - 2020-02-18 07:14 - okurz

This is an autogenerated message for openQA integration by the openqa_review script:

This bug is still referenced in a failing openQA test: ltp_syscalls_slub_debug

<https://openqa.suse.de/tests/3886594>

To prevent further reminder comments one of the following options should be followed:

1. The test scenario is fixed by applying the bug fix to the tested product or the test is adjusted
2. The openQA job group is moved to "Released"
3. The label in the openQA scenario is removed

#3 - 2020-03-04 07:08 - okurz

This is an autogenerated message for openQA integration by the openqa_review script:

This bug is still referenced in a failing openQA test: ltp_controllers@ppc64le-virtio

<https://openqa.suse.de/tests/3938610>

To prevent further reminder comments one of the following options should be followed:

1. The test scenario is fixed by applying the bug fix to the tested product or the test is adjusted
2. The openQA job group is moved to "Released"
3. The label in the openQA scenario is removed

#4 - 2020-03-06 11:26 - okurz

- Category set to Bugs in existing tests

#6 - 2020-03-20 15:15 - jlausuch

[rpalethorpe](https://openqa.suse.de/tests/3938610) is this a duplicate of <https://progress.opensuse.org/issues/27247> ?

#7 - 2020-04-02 08:17 - pcervinka

- Target version set to 445

#8 - 2020-04-17 06:08 - okurz

This is an autogenerated message for openQA integration by the openqa_review script:

This bug is still referenced in a failing openQA test: ltp_syscalls
<https://openqa.suse.de/tests/4124861>

To prevent further reminder comments one of the following options should be followed:

1. The test scenario is fixed by applying the bug fix to the tested product or the test is adjusted
2. The openQA job group is moved to "Released"
3. The label in the openQA scenario is removed

#9 - 2020-04-30 10:36 - pcervinka

- *Status changed from New to Rejected*

According to [MDoucha](#) this one is really duplicate of poo#27247, which was fixed.

#10 - 2020-05-15 05:57 - pcervinka

- *Target version changed from 445 to 457*

#11 - 2020-10-23 13:42 - pcervinka

- *Target version changed from 457 to QE Kernel Done*
