We seem to have two entries:

One problem is that they have changed IP address, and the reverse mapping doesn't match, so the ACL would block access.

```
# host mirror.unej.ac.id
mirror.unej.ac.id has address 103.241.205.8
```

I'll write to all of the admin addresses above.

#3 - 20/02/2020 09:30 am - pjessen

Both of the @unej.ac.id addresses bounced. I'll try info@unej.ac.id.

#4 - 04/03/2020 09:39 am - pjessen

- Due date deleted (05/03/2020)
- Status changed from Feedback to Resolved
- % Done changed from 0 to 100

Response:

I'm not responsible to maintain that mirror again since we are not working anymore with Jember University

From what I'm hear, the server has going down and broke, and I think you can remove it from mirror list

I have removed both mirrors.
