openQA Tests - action #63994

[functional][u] test fails in wine - screen lock due to no activity?

2020-02-29 20:10 - likocman

Status: Resolved
Priority: High
Assignee: zluo
Category: Bugs in existing tests
Target version: Milestone 30

Description

Observation

openQA test in scenario opensuse-15.2-NET-x86_64-extra_tests_on_xfce@64bit fails in wine
Are we handling policikit dialog correctly (needle is matched) but then it seems like we hit a screen lock due to no activity

Suggestions

- Deactivate the lock screen like in other scenarios
- Teach wine module to handle lock screens

Reproducible

Fails since (at least) Build 554.2

Expected result

Last good: 553.1 (or more recent)

Further details

Always latest result in this scenario: latest

History

#1 - 2020-03-03 15:05 - mgriessmeier

found out that needle 'pkcon_finished' was not matching but it doesn't show up. So update it and it works now:
http://f40.suse.de/tests/7235
re-trigger it on o3 now.

#6 - 2020-03-24 16:16 - zluo
- Status changed from In Progress to Resolved

https://openqa.opensuse.org/tests/1212767 resolved now.
