openQA Tests - action #64045

coordination # 47003 (Resolved): [qe-core][epic][functional][ppc64le] test runs into MAX_JOB_TIME - split extra_tests_in_textmode

action # 57290 (Resolved): [qe-core][functional] Move module specific test modules from extra_tests_* scenarios to its respective scenario

[functional][u] test fails in libvorbis - test fails in command_not_found - Those test modules should be moved to a dedicated scenario extra_tests_textmode_desktop

Description

Related bug

- https://bugzilla.suse.com/show_bug.cgi?id=1165438

Registration server fails to detect that installed system was already registered and activated Basesystem and ServerApp modules create_hdd_textmode
The test module libvorbis fails to register against DesktopApp module and command_not_found expect a system that has desktop module already activated.

Tasks

- Create new test suite extra_tests_textmode_desktop
- Move test modules libvorbis and command-not-found to extra_tests_textmode_desktop

Reproducible

- In scenario sle-15-SP2-Online-ppc64le-extra_tests_in_textmode@ppc64le
- Fails since Build 148.1
  - libvorbis
  - command_not_found

Expected result

Last good: 146.1

Further details

Always latest result in this scenario: latest

  looks good.
  So lets implement order 66 merge https://gitlab.suse.de/qsf-u/qa-sle-functional-userspace/-/merge_requests/40/diffs which will move the tests from devel to production jobgroup.

#13 - 2020-03-26 09:13 - dheidler
  extra_tests_in_textmode is unscheduled now.

  Let's finally rename extra_tests_in_textmode_phub to extra_tests_textmode_phub for sake of consistency as it is already using YAML scheduling.

  These PR/MRs have to be merged at the same time. Also at the same time the testsuite must be renamed via the OSD webui.
