Target version: future  Difficulty:

Description

**Observation**

openQA test in scenario opensuse-Tumbleweed-KDE-Live-aarch64-kde_live_upgrade_leap_15.0@aarch64 fails in live_installation

Instead of clicking the 'Upgrade' icon, it shows a bar on top of the screen to add widgets.

So problem is that when we do assert_and_click mouse click is hold for too long, so this overlay appears.

We could either act on overlay and retry starting upgrade or apply workaround and start upgrade from the kde desktop runner similarly to what we have on L51:
https://github.com/os-autoinst/os-autoinst-distri-opensuse/pull/10474/files#diff-747319ea64cbca8d795af5d9a97e2163

**Test suite description**

Uses the live installer on the kde live media for upgrading the system.

+QEMURAM=2048 is necessary as the HDD_1 is only available for aarch64/64-bit and more RAM is necessary.

**Reproducible**

Fails since (at least) Build 20200309

**Expected result**

Last good: 20200226 (or more recent)

**Further details**

Always latest result in this scenario: latest

**History**

#1 - 2020-03-27 07:03 - okurz
This is an autogenerated message for openQA integration by the openqa_review script:

This bug is still referenced in a failing openQA test: kde_live_upgrade_leap_15.0
https://openqa.opensuse.org/tests/1211561.

To prevent further reminder comments one of the following options should be followed:

1. The test scenario is fixed by applying the bug fix to the tested product or the test is adjusted
2. The openQA job group is moved to "Released"
3. The label in the openQA scenario is removed

#2 - 2020-07-01 07:21 - riafarov
- Subject changed from test fails in live_installation on Tumbleweed to [functional][y] test fails in live_installation on Tumbleweed
- Due date set to 2020-07-14
- Priority changed from Normal to Low

2021-05-17
More recent failure: https://openqa.opensuse.org/tests/1299354#
Issue is sporadic, and doesn’t happen too often as per history of runs in openQA. So let’s check what we can do in order to stabilize test execution.
