

qe-yast - action #64752

coordination # 56477 (New): Implement notifications in case specific files were changed in PR

action # 63331 (Resolved): [functional][y] Test that test data files exist in case mentioned in the schedule

[functional][y] Test that test data files exist in case mentioned in the schedule

2020-03-24 10:35 - riafarov

Status:	Resolved	Start date:	2020-02-10
Priority:	Normal	Due date:	
Assignee:	syrianidou_sofia	% Done:	0%
Category:		Estimated time:	5.00 hours
Target version:	future		
Description			
Follow up on #63331			
We have missing check for the TEST_DATA variable if is set in the schedule file			
Acceptance criteria			
1. Test data files existence is checked if is set in TEST_DATA variable in the schedule file			
2. In case test data file(s) is renamed/removed CI check fails if old name is used in any of the schedules (including TEST_DATA variable)			
Suggestion			
In case we want to use perl, we have all the libraries in place.			
https://github.com/os-autoinst/os-autoinst-distri-opensuse/blob/master/tools/detect_nonexistent_modules_in_yaml_schedule can be used as an example.
