openQA Tests - action #65262

Firstboot test fails on GDM screen (expects gnome-session)

2020-04-03 13:19 - lkocman

Status: Rejected
Priority: Normal
Assignee: SLindoMansilla
Category: Bugs in existing tests
Target version: Milestone 30

Description
Firstboot test fails on GDM screen (expects gnome-session)

Observation
openQA test in scenario opensuse-15.2-NET-x86_64-gnome@Laptop_64 fails in first_boot

Test suite description

Reproducible
Fails since (at least) Build 619.3 (current job)

Expected result
Last good: 619.2 (or more recent)

Further details
Always latest result in this scenario: latest

History
#1 - 2020-04-06 11:00 - lkocman
Same seems to be here https://openqa.opensuse.org/tests/1224838#step/first_boot/11

#2 - 2020-04-12 20:42 - okurz
- Subject changed from Firstboot test fails on GDM screen (expects gnome-session) to [functional][u] Firstboot test fails on GDM screen (expects gnome-session)

please try to put your custom text within sections of the text not above and feel free to adjust the template text to your liking. Also I recommend you find a team tag or assign to the test module maintainer.

This is an autogenerated message for openQA integration by the openqa_review script:

This bug is still referenced in a failing openQA test: upgrade_Leap_42.3_cryptlvm@uefi https://openqa.opensuse.org/tests/1244032

To prevent further reminder comments one of the following options should be followed:

1. The test scenario is fixed by applying the bug fix to the tested product or the test is adjusted
2. The openQA job group is moved to "Released"
3. The label in the openQA scenario is removed

#5 - 2020-05-18 09:38 - SLindoMansilla
- Status changed from New to Rejected
- Assignee set to SLindoMansilla
- Target version set to Milestone 30

It was actually a product bug.
And it is not reproducible since 12 days: https://openqa.opensuse.org/tests/1270455
