Category:		Estimated time:	8.00 hours
Target version:	future		
Difficulty:			

Description

Motivation

Last piece of the automated checks we can easily achieve is checking that in the job group we have specified existing yaml schedules and test data files.

We could use features like subrepo or modules.
In case we need some extra packages in the docker container we can easily add them, contact riafarov.

Acceptance criteria

1. CI fails in case job group settings refer to yamls schedule or test data yaml which do not exist

History

#1 - 2020-04-08 10:28 - riafarov

- Due date changed from 2020-04-21 to 2020-05-05

#2 - 2020-04-15 08:55 - riafarov

- Subject changed from [functional][y] test if shcedules and test data files in the job group do exist in the os-autoinst/os-autoinst-distri-opensuse repo to [functional][y] test if schedules and test data files in the job group do exist in the os-autoinst/os-autoinst-distri-opensuse repo

- Description updated

- Status changed from New to Workable

- Estimated time set to 8.00 h

#3 - 2020-04-22 09:12 - riafarov

- Due date changed from 2020-05-05 to 2020-05-19

#4 - 2020-05-06 11:11 - JERiveraMoya

- Assignee set to JERiveraMoya

#5 - 2020-05-07 12:57 - JERiveraMoya

- Status changed from Workable to Feedback
