

openQA Tests - action #66116

[qac][public cloud] Use VM id instead of name for Azure

2020-04-27 21:49 - cfconrad

Status:	Resolved	Start date:	2020-04-27
Priority:	Normal	Due date:	
Assignee:	cfconrad	% Done:	0%
Category:	Enhancement to existing tests	Estimated time:	0.00 hour
Target version:			
Difficulty:			
Description			
In azure a VM can be specified by resource group (rg) plus instance name or by instance ID. With this patch we move from rg+name to ID, which make later usage more easy, but also breaks the implicit assumption that name and rg is always equal.			

History

#1 - 2020-05-05 07:52 - cfconrad

<https://github.com/os-autoinst/os-autoinst-distri-opensuse/pull/10115>

#2 - 2020-05-05 16:18 - okurz

- Project changed from openSUSE Release Process to openQA Tests

I think the project selection was an overlook and probably you want this to be in "openQA Tests" so that you can also edit fields

#3 - 2020-05-05 16:28 - jlausuch

- Category set to Enhancement to existing tests

- Status changed from New to Resolved
