

openQA Tests - action #68104

[tools] test fails being unable to read result-<test>.json: No such file or directory

2020-06-15 11:58 - dzedro

Status: Rejected	Start date: 2020-06-15
Priority: Urgent	Due date:
Assignee: okurz	% Done: 0%
Category: Bugs in existing tests	Estimated time: 0.00 hour
Target version:	
Difficulty:	
Description	
Observation	
Since last week, last deployment I guess, tests fail despite all tests passed. But there is always one test which has no webui results uploaded https://openqa.suse.de/tests/4348455 - worker.log: Unable to read result-consoletest_finish.json: No such file or directory https://openqa.suse.de/tests/4348369 - worker.log: Unable to read result-disable_grub_timeout.json: No such file or directory	
Reproducible	
Fails since (at least) Build 20200615-1 (current job)	
Expected result	
Last good: 20200614-1 (or more recent)	
Further details	
Always latest result in this scenario: latest

This is an autogenerated message for openQA integration by the openqa_review script:

This bug is still referenced in a failing openQA test: qam-allpatterns

<https://openqa.suse.de/tests/4410739>

To prevent further reminder comments one of the following options should be followed:

1. The test scenario is fixed by applying the bug fix to the tested product or the test is adjusted

2. The openQA job group is moved to "Released"
3. The label in the openQA scenario is removed

I deleted the comment in <https://openqa.suse.de/tests/4885307#comments> pointing to this ticket. The job is softfailed referencing https://bugzilla.suse.com/show_bug.cgi?id=1081584. There should be no need for the label and it seems wrong. Note: I have not seen previous reminder comments because they had been posted by openqa-review running as "okurz" hence I did not receive a notification. I only did now because "openqa-review" triggered by <https://gitlab.suse.de/openqa/openqa-review/-/pipelines> posted the comment now.
