There is actually a new issue, until like 01/07, the source repositories were added to the openqa install (like SLE12SP2 ~ SLE15SP1), but now they are gone and one need to add them back manually in order to have the latest dracut source installed.

#5 - 2020-07-07 10:26 - emiura

Fix with source repositories added is on <https://github.com/os-autoinst/os-autoinst-distri-opensuse/pull/10654> (already merged)
