#### Description

### Observation

bsc#1162514 is resolved but the fix for SLE15SP2 is declined[0]. Although the fix is submitted as maintenance update[1].

I think we need to act on those jobs that fail in OSD and update the packages or move them in development group.

This is an autogenerated message for openQA integration by the openqa\_review script:

This bug is still referenced in a failing openQA test: iscsi\_client\_normal\_auth\_backstore\_fileio  
<https://openqa.suse.de/tests/4428189>

To prevent further reminder comments one of the following options should be followed:

1. The test scenario is fixed by applying the bug fix to the tested product or the test is adjusted
2. The openQA job group is moved to "Released"
3. The label in the openQA scenario is removed
