[functional][y] yast2_gui@svirt-xen-hvm fails when retriggered, if parent create_hdd_gnome has failed

2020-07-08 12:25 - syrianidou_sofia

Status:	Rejected	Start date:	2020-07-08
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Bugs in existing tests	Estimated time:	0.00 hour
Target version:			
Difficulty:			
Description			
<p>Test suite yast2_gui@svirt-xen-hvm is set to START_AFTER_TEST=create_hdd_gnome. When a new build is triggering all test suites, create_hdd_gnome@svirt-xen-hvm fails and yast2_gui@svirt-xen-hvm is skipped as expected. https://openqa.suse.de/tests/4342327#dependencies</p> <p>If we trigger yast2_gui@svirt-xen-hvm, it would be expected that create_hdd_gnome@svirt-xen-hvm should be triggered as well but this doesn't happen, resulting in failure as the dependent test can't find HDD_1. https://openqa.suse.de/tests/4424999</p> <pre>[error] [pid:6204] Failed to download SLES-15-SP2-x86_64-Build209.2@svirt-xen-hvm-gnome.qcow2 to /var/lib/openqa/cache/openqa.suse.de/SLES-15-SP2-x86_64-Build209.2@svirt-xen-hvm-gnome.qcow2</pre>
