

openQA Project - action #69343

all jobs on o3 incomplete with auto_review:"Can't locate object method.*pid.*"

2020-07-25 08:49 - okurz

Status:	Resolved	Start date:	2020-07-25
Priority:	Immediate	Due date:	
Assignee:	okurz	% Done:	0%
Category:	Concrete Bugs	Estimated time:	0.00 hour
Target version:	Ready		
Difficulty:			
Description			
Observation			
all jobs on o3 incomplete except for ppc ones, probably because of an older os-autoinst version there.			
https://openqa.opensuse.org/tests/1342155/file/autoinst-log.txt shows			
[0mCan't locate object method "pid" via package "/usr/lib/os-autoinst" (perhaps you forgot to load "/usr/lib/os-autoinst?") at /usr/bin/isotovideo line 201.			

History

Did for i in aarch64 openqaworker1 openqaworker4 openqaworker7 power8 imagetester rebel; do echo \$i && ssh root@\$i "transactional-update rollback last && reboot" ; done now.

#2 - 2020-07-25 10:07 - okurz

- Status changed from *In Progress* to *Feedback*

Called openqa-restart-incompletes-on-worker-instance to retrigger all incompletes.

<https://github.com/os-autoinst/os-autoinst/pull/1485> created for a fix, merged.

#3 - 2020-07-26 16:22 - okurz

- Status changed from *Feedback* to *Resolved*

all stable again
