I think we should increase priority since Leap 15.1 is supported only until November 2020, which is close!

Moreover, I would really need to have openqa-aarch64 machine to be upgraded to Leap 15.2 soon. Because I need qemu >= 4.0 for aarch64 specific tests.

Would it be possible to increase the priority of the blocking osd task so that someone pick it up? Or to upgrade at least openqa-aarch64 to Leap 15.2?

#4 - 2020-09-29 13:52 - okurz

- Subject changed from *Upgrade o3 workers+webui to openSUSE Leap 15.2* to *[epic] Upgrade o3 workers+webui to openSUSE Leap 15.2*

I think now is a good time to upgrade openqa-aarch64 as a precursor. Created subtask [#72079](#)

#5 - 2020-10-11 11:39 - okurz

openqa-aarch64 is upgraded. Other machines handled in [#73189](#)

- Description updated

We are behind the plan but openSUSE Leap is going EOL in 2021-01, see <https://lists.opensuse.org/opensuse-security-announce/2020-11/msg00040.html>

We should still do the upgrade in the next weeks and not wait for next year
