

## openQA Tests - action #69580

### [qam][sprint] Incorrect parsing of the update

2020-08-04 13:39 - apappas

<b>Status:</b> Resolved	<b>Start date:</b> 2020-08-04
<b>Priority:</b> Urgent	<b>Due date:</b>
<b>Assignee:</b> apappas	<b>% Done:</b> 0%
<b>Category:</b> Bugs in existing tests	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	
<b>Difficulty:</b>	

**Description**

### Observation

openQA test in scenario sle-15-SP1-Server-DVD-Incidents-Install-x86\_64-qam-incidentinstall@64bit fails in [update\\_install](#)

### Test suite description

Incident Installation TEST  
MAX\_JOB\_TIME=9000 due to long texlive update

### Reproducible

Fails since (at least) Build [:15981:python-boto3](#) (current job)

### Expected result

Last good: [:15884:fftw3](#) (or more recent)

### Further details

Always latest result in this scenario: [latest](#)

## History

### #1 - 2020-08-04 13:41 - apappas

- File [download.png](#) added
- Subject changed from test fails in [update\\_install](#) to [qam] Incorrect parsing of the update
- Status changed from New to In Progress
- Assignee set to apappas
- Priority changed from Normal to Urgent
- Parent task set to #65666

As seen in this [step](#) the test incorrectly parses the zypper info patch output, tries to find the python-boto3 package while the name of the package is python3-boto3.

This results in NO tests to be installed.

### #2 - 2020-08-21 13:09 - dzedro

You created case on declined, don't know why exactly, update. Without discussion, ideally with Ondřej. The output is correct ... I tries to install python-botocore, which is not provided by existing repositories.

### #3 - 2020-09-08 09:08 - apappas

- Subject changed from [qam] Incorrect parsing of the update to [qam][sprint] Incorrect parsing of the update

### #4 - 2020-09-22 05:31 - apappas

Waiting for [PR](#) to be merged.

**#5 - 2020-10-02 13:32 - apappas**

- Status changed from *In Progress* to *Resolved*

PR merged.
