Target version:	future			

Description

Currently, yast-metapackage-handler has no unit test at all. The goal is to test basic functions of the package for 1-click-install.

YaST team has advised to create a pull request as soon as the first working part of the unit test is ready.

As a first step we should figure out how to inject the unit tests and how to write them.
In the scope of the ticket we should learn how to write those and execute.

And after that create follow-up tickets for exact classes/modules we want to cover with unit tests.

History

#1 - 2020-08-06 12:21 - syrianidou_sofia

- Parent task changed from #69400 to #69394

If not covered by unit test, I will open a ticket for openqa module creation that will test one-click-install

#2 - 2020-08-24 13:01 - riafarov

- Due date set to 2020-09-08

- Target version set to future

#3 - 2020-08-26 08:55 - riafarov

- Subject changed from [y] Add unit test for yast-metapackage-handler to [y][timeboxed:24h] Add unit test for yast-metapackage-handler

- Description updated

- Category set to Spike/Research

#4 - 2020-08-26 09:36 - riafarov

- Status changed from New to Workable

#5 - 2020-09-08 06:49 - JERiveraMoya

- Status changed from Workable to In Progress

PR: https://github.com/yast/yast-metapackage-handler/pull/22

#6 - 2020-09-08 08:50 - JERiveraMoya

- Status changed from In Progress to Feedback

@sofia will be list here the rb files more interesting (adviced by YaST developers) for doing unit testing and create ticket for it correspondingly.
Also we'll write a found bug and the ticket for the openQA for smoke test.

#7 - 2020-09-08 16:47 - syrianidou_sofia

- Status changed from Feedback to Resolved

Follow up ticket: https://progress.opensuse.org/issues/71122
PR with first part of the unit test: https://github.com/yast/yast-metapackage-handler/pull/22

#8 - 2020-11-03 13:46 - riafarov

- Due date deleted (2020-09-08)
