merged, deployed and working fine. I now created [https://gitlab.suse.de/openqa/salt-states-openqa/-/merge\\_requests/369](https://gitlab.suse.de/openqa/salt-states-openqa/-/merge_requests/369) as a followup to also cover the new storage in a space usage query and corresponding alert.

Ah, nice - I've just created [https://gitlab.suse.de/openqa/salt-states-openqa/-/merge\\_requests/371](https://gitlab.suse.de/openqa/salt-states-openqa/-/merge_requests/371) so we were duplicating our efforts. Since I've been assigned to both relevant tickets I haven't expected any action from your side.
