

openQA Project - action #70252

Dependency problem: Parent shown as passed instead of failed

2020-08-19 13:17 - ggardet_arm

Status:	Resolved	Start date:	2020-08-19
Priority:	Normal	Due date:	
Assignee:	mkittler	% Done:	0%
Category:	Concrete Bugs	Estimated time:	0.00 hour
Target version:	Ready		
Difficulty:	easy		

Description

On <https://openqa.opensuse.org/tests/overview?distri=opensuse&version=Jump%3A15.2&build=39.1&groupid=75> you can check children of create_hdd_textmode test which failed.

They are all canceled due to the parent failure, but the logo is green and claims:

```
1 chained parent
dependency passed
```

which is wrong.

History

#1 - 2020-08-19 13:17 - ggardet_arm

- Tags set to webui

#2 - 2020-08-19 13:20 - mkittler

- Assignee set to mkittler

- Difficulty set to easy

I can reproduce it locally. The problem should be very easy to fix.

#3 - 2020-08-19 15:24 - mkittler

- Category set to Concrete Bugs

- Status changed from New to In Progress

This PR contains a fix: <https://github.com/os-autoinst/openQA/pull/3319>

#4 - 2020-08-22 05:48 - okurz

- Target version set to Ready

#5 - 2020-08-26 14:32 - mkittler

- Status changed from In Progress to Resolved

The PR has been merged and deployed. The dependency icons besides the skipped jobs are now red and the tooltip says "dependency failed".
