Target version:			
Description			
There are new maint. update appeared in SUSE:SLE-15-SP2:Update, we should add pool repository to SUSE:SLE-15-SP2:Update project and sync RPMs from IBS to there. And maybe we should uses this pool to instead of SUSE:SLE-15-SP2:GA pool in Jump:15.2?			

History

#1 - 2020-08-20 11:11 - mlin7442

one more note, openSUSE:Backports:SLE-15-SP2:Update has SUSE:SLE-15-SP2:Update/standard in its meta. not SUSE:SLE-15-SP2:Update/pool
