Description			
https://openqa.opensuse.org/tests/1404670/file/autoinst-log.txt			
<pre>[0m[37m[2020-09-24T14:19:51.472 CEST] [debug] scheduling gpg tests/console/gpg.pm [0m[37m[2020-09-24T14:19:51.473 CEST] [debug] scheduling rsync tests/consolersync.pm</pre>			
It should be tests/console/rsync.pm - not tests/consolersync.pm. Strangely this doesn't happen for every entry.			

History

hm, when I open the linked url, I see:

```
[0m[37m[2020-09-24T14:19:51.472 CEST] [debug] scheduling gpg tests/console/gpg.pm
[0m[37m[2020-09-24T14:19:51.473 CEST] [debug] scheduling rsync tests/console/rsync.pm
```

#2 - 2020-09-25 11:55 - dheidler

interesting - it only seems to happen in firefox. maybe it doesn't like the escape sequences.

#3 - 2020-09-25 14:40 - mkittler

I also can't reproduce with Firefox. This issue is most likely out of scope considering it is just the browser having trouble rendering a plain text file.

#4 - 2020-09-25 14:45 - dheidler

It seems to - still very odd, though.

#5 - 2020-09-28 09:29 - okurz

- Priority changed from Normal to Low

- Target version set to future

[dheidler](#) what can you suggest we do here then? You want to track if it still happens when changing browser/version/user/config?

#6 - 2020-09-28 09:41 - dheidler

- Status changed from New to Closed

I don't think this is anything that could be fixed in openQA - so let's close this ticket.
