

openQA Infrastructure - action #72136

[osd-admins] [Alerting] Workers alert during osd deployment, then "ok" after 1 minute, should not alert

2020-09-30 11:05 - okurz

Status:	Resolved	Start date:	2020-09-30
Priority:	Low	Due date:	
Assignee:	okurz	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	Ready		
Description			
Observation			
[Alerting] Workers alert Minion workers down. Check systemd services on the openQA host			
See https://stats.openqa-monitor.qa.suse.de/d/WebuiDb/webui-summary?fullscreen&edit&tab=alert&panellid=17&orgId=1&refresh=30s for the corresponding panel			
Expected result			
There should not be any alert during deployment as the service recovered itself after 1m.			
Problem			
I think we already bumped the time duration for which no alert should not be raised to 8m, maybe need to increase or find better solution.			

History

#1 - 2020-10-10 18:04 - okurz

- Status changed from New to Resolved
- Assignee set to okurz
- Priority changed from Normal to Low

bumped threshold to 10m with https://gitlab.suse.de/openqa/salt-states-openqa/-/merge_requests/376
