Description			
<p>mnowak made me aware on how nontransparent the requirements for new machines in the Labs are. In the process of deploying his machine I noticed the following points should be documented to help people who want to bring their "own hardware" in our lab (feel free to suggest points in the comments):</p> <ul style="list-style-type: none">• Which type of machine makes sense in the labs (e.g.: no productive hardware)• What to do to get a *.qa.suse.de domain• Required info for the admin (MAC, Hostname, ...?)• ...
