Description
According to Angela Briel, the sleep after stopping tuned should be adjusted to give it time. This fix has to be done in https://gitlab.suse.de/AngelaBriel/sapconf-test

History

#1 - 2020-10-29 07:04 - okurz
This is an autogenerated message for openQA integration by the openqa_review script:

This bug is still referenced in a failing openQA test: sles4sap_horizontal_migration_sapconf@64bit
https://openqa.suse.de/tests/4890846

To prevent further reminder comments one of the following options should be followed:

1. The test scenario is fixed by applying the bug fix to the tested product or the test is adjusted
2. The openQA job group is moved to "Released"
3. The label in the openQA scenario is removed

#2 - 2020-11-12 07:05 - okurz
This is an autogenerated message for openQA integration by the openqa_review script:

This bug is still referenced in a failing openQA test: sles4sap_horizontal_migration_sapconf@64bit
https://openqa.suse.de/tests/4965667

To prevent further reminder comments one of the following options should be followed:

1. The test scenario is fixed by applying the bug fix to the tested product or the test is adjusted
2. The openQA job group is moved to "Released"
3. The label in the openQA scenario is removed

#3 - 2020-11-25 14:30 - rbranco
This PR does not fix the underlying issue (which couldn't be manually reproduced), but it was agreed that the rest of the tests were needed on openQA.
https://github.com/os-autoinst/os-autoinst-distri-opensuse/pull/11472

#4 - 2020-11-26 13:14 - tjyrinki_suse
- Subject changed from some sapconf tests fail on sles4sap to [qe-asg] some sapconf tests fail on sles4sap

#5 - 2020-12-02 11:27 - rbranco
- Due date changed from 2020-11-30 to 2021-12-02
- % Done changed from 0 to 90
