

openSUSE 13.1 Release - action #740

close old Factory bugs

2013-09-02 13:45 - Inussel

Status:	Closed	Start date:	2013-09-02
Priority:	Normal	Due date:	2013-09-19
Assignee:	aplanas	% Done:	0%
Category:	Development	Estimated time:	0.00 hour
Target version:	13.1 RC1		
Description			
We should have a bug bot that closes old Factory bugs. For example Fedora closes bugs that were filed during development of the previous release.			

History

#1 - 2013-09-16 11:31 - cboltz

Doesn't sound like the best idea to me - bugs should be fixed, not ignored ;-)

Besides that, a good bugzilla query + mass-change could do the job if you really want to do this - no need to write a bot ;-)

"Good query" means at least:

- only bugs that were not changed within the last 2 or 3 months
- do not include major or critical bugs (IMHO those are worth to be manually checked)

#2 - 2013-09-17 11:17 - toscalix

- Due date set to 2013-09-19

- Assignee set to aplanas

Could this be part of the screening day next Thursday?

#3 - 2013-09-20 08:08 - Inussel

- Target version changed from 13.1 Beta 1 to 13.1 RC1

#4 - 2013-09-30 11:23 - aplanas

- Status changed from New to Feedback

I am in position to close old bugs that meets some criteria. This idea is still useful?

#5 - 2013-09-30 11:30 - Inussel

Some people have raised concerns. I think it would require some discussion on the Factory list first.

#6 - 2013-10-07 11:26 - Inussel

- Status changed from Feedback to Closed

rejected for now
