### Invalid cert on https://opensuse.org

2020-10-26 13:18 - dimstar@suse.de

<b>Status:</b> Resolved	<b>Start date:</b> 2020-10-26
<b>Priority:</b> Urgent	<b>Due date:</b>
<b>Assignee:</b> bmwiedemann	<b>% Done:</b> 100%
<b>Category:</b>	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	
<b>Description</b>	
Dear Heroes,	
openqa.opensuse.org is currently no longer accessible, as an invalid cert found its way there:	
curl <a href="https://openqa.opensuse.org">https://openqa.opensuse.org</a>	
curl: (60) SSL: no alternative certificate subject name matches target host name 'openqa.opensuse.org'	
More details here: <a href="https://curl.haxx.se/docs/sslcerts.html">https://curl.haxx.se/docs/sslcerts.html</a>	
curl failed to verify the legitimacy of the server and therefore could not establish a secure connection to it. To learn more about this situation and how to fix it, please visit the web page mentioned above.	
The certificate presented is valid for *.opensuse.fr	
Thank you for looking into the matters.	
Best regards, Dominique

### History

#### #1 - 2020-10-26 13:20 - dimstar

- Private changed from Yes to No

#### #2 - 2020-10-26 13:25 - dimstar

Other impacted hosts I could find so far:

- [www.opensuse.org](http://www.opensuse.org)
- [factory-dashboard.opensuse.org](http://factory-dashboard.opensuse.org)

some other sites work though (like [software.opensuse.org](http://software.opensuse.org))

#### #3 - 2020-10-26 13:25 - dimstar

- Priority changed from Normal to Urgent

#### #4 - 2020-10-26 13:25 - dimstar

- Subject changed from Invalid cert on https://openqa.opensuse.org to Invalid cert on https://opensuse.org

#### #5 - 2020-10-26 13:58 - okurz

- Related to tickets #75250: opensuse.de + fr SSL broken added

#### #6 - 2020-10-26 13:58 - okurz

- Status changed from New to Workable
- Assignee set to bmwiedemann

**#7 - 2020-10-26 16:17 - bmwiedemann**

- Status changed from Workable to Resolved
- % Done changed from 0 to 100

The dehydrated crtmggr setup scripts erroneously overwrote a cert with newly created certs.  
Thanks darix, it was fixed in under 2h.
