

## openQA Infrastructure - action #75403

coordination # 75400 (Resolved): [epic] Improve documentation about how to manage infrastructure

### salt "cheat sheet" for common commands to change/fix osd infrastructure

2020-10-27 10:08 - okurz

<b>Status:</b>	Resolved	<b>Start date:</b>	2020-10-27
<b>Priority:</b>	Low	<b>Due date:</b>

<b>Target version:</b>	Ready		

#### Description

### Motivation

Brought up during SUSE QA Tools retrospective 2020-10-27 : We already have <https://gitlab.suse.de/openqa/salt-states-openqa#local-test-deployment> which we could extend with common commands we use to manage the OSD infrastructure.

### Acceptance criteria

- **AC1:** README file of salt-states-openqa mentions common salt commands used in production

### Suggestions

- Add "common salt commands" to <https://gitlab.suse.de/openqa/salt-states-openqa>
- Generalize the test instructions to replace salt-call --local
- Include common commands to apply
  - salt -l error \\* state.apply highstate
  - salt -C 'G@roles:worker' cmd.run 'uptime'

#### History

#1 - 2020-11-03 14:32 - okurz

- Priority changed from Normal to Low

#2 - 2020-11-05 14:05 - okurz

- Description updated

#3 - 2020-11-19 07:50 - okurz

- Status changed from Workable to In Progress

- Assignee set to okurz

#4 - 2020-11-19 09:14 - okurz

- Status changed from In Progress to Feedback

I approved the SR. Looks sufficient to me. I'd extend it as needed.

#6 - 2020-11-19 20:13 - okurz

- Status changed from Feedback to Resolved

merged, thx.
