Hello Takashi, do we already have some Leap flavor that could be used?

#2 - 2021-02-02 15:04 - lkocman

Max I've confirmed with Takashi that packaging work is done.

But the installation and the upgrade may need some more things to address, e.g. Leap patterns need / recommends / suggests kernel-default-optional instead of kernel-default.

Can you please have a look at it?

Thank you
