Target version: Alpha	
Description the rsync.pl script needs to be adjust to sync the isos to openQA when doing that the directory for changes needs to be created <pre># cd /var/lib/snapshot-changes/opensuse/ # mkdir 15.1 # chown factory-news 15.1 # setfacl -m u:geekotest:rwx 15.1</pre> run rsync.pl and make sure an entry is created in snapshot-changes. Then symlink the current build: <pre># sudo -u geekotest ln -s \$BUILDNR current</pre> edit /etc/apache2/conf.d/factory-package-news.conf for the new release
