Signed by Marco Strigl we took into account [https://en.opensuse.org/Portal:15.2/Retrospective#non-opensuse\\_signing\\_key\\_on\\_.sha256\\_files](https://en.opensuse.org/Portal:15.2/Retrospective#non-opensuse_signing_key_on_.sha256_files)  
And hopefully improved the way how we sign images.

Files are signed with same key as in 15.2 (The OPENSUSE key).
