Target version:	Ready		
Description			
Also see https://chat.suse.de/channel/asg-qe.maintenance?msg=sjmkzWmDtt63Mzoc the job group id 284 had only 5GB so can't hold much assets. We have currently on OSD 10TB of asset space. I will go over all groups that are currently configured with 5GB or less and fully using their quota and bump up to 10GB
