qe-yast - action #78007

coordination # 76861 (Closed): Adjust test code for the new partitioner UI

Adjust partitioning_warnings for the UI changes

2020-11-16 12:40 - riafarov

Status:	Resolved	Start date:	2020-11-16
Priority:	High	Due date:	
Assignee:	oorlov	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	SLE 15 SP3		

Description

We should try to reuse old code, where is still applicable in order to speed up the process, and for the complex actions use REST API.

Scope is openSUSE and SLE 15 SP3.

Observation

openQA test in scenario opensuse-Tumbleweed-DVD-x86_64-btrfs+warnings@64bit fails in
partitioning_warnings

Test suite description

Reproducible

Fails since (at least) Build 20201113

Expected result

Last good: 20201112 (or more recent)

Further details

Always latest result in this scenario: latest

I've decided to use libyui in the module. Also I've split the module to several ones to make the tests more scope-isolated. PR for the no root warning:
https://github.com/os-autoinst/os-autoinst-distri-opensuse/pull/11559

#5 - 2020-12-31 06:06 - okurz

This is an autogenerated message for openQA integration by the openqa_review script:

This bug is still referenced in a failing openQA test: btrfs+warnings
https://openqa.opensuse.org/tests/1534649

To prevent further reminder comments one of the following options should be followed:

1. The test scenario is fixed by applying the bug fix to the tested product or the test is adjusted
2. The openQA job group is moved to "Released"
3. The label in the openQA scenario is removed

#6 - 2021-01-14 16:40 - oorlov

- Status changed from In Progress to Feedback

The last PR is https://github.com/os-autoinst/os-autoinst-distri-opensuse/pull/11763.
