Hi,

could you please change the "Email List" at bugzilla-o-o for the component "Xfce"?
It's currently set to bnc-team-xfce@forge.provo.novell.com but we would like to have it at xfce-bugs@lists.opensuse.org as soon as that's ready.

If the heroes can't do that please forward the request towards SUSE IT.

Hence my other email on that issue.

Thanks,
vinz.

History

#1 - 2020-11-17 11:04 - vinzv

- Parent task set to #78109

#2 - 2020-11-17 11:15 - hellcp

- Category set to Bugzilla

- Private changed from Yes to No

#3 - 2020-11-26 09:59 - vinzv

Thanks for adding the mailing list to Bugzilla. Unfortunately now it's set to xfce@lists.opensuse.org instead of xfce-bugs@lists.opensuse.org. Please change that quickly as people on the regular mailing list are complaining about bugzilla mails flooding their inbox. ;-)

#4 - 2020-12-21 11:33 - pjessen

I have no idea who is supposed to deal with this?

#5 - 2021-03-05 11:16 - mauriziogalli

So someone did fix the issue with xfce@lists.opensuse.org being spammed by removing the address. However we would still like to have bug reports to be "spamming" xfce-bugs@lists.opensuse.org and it's not happening. Can it be done?
