

## qe-yast - action #80212

### Adjust cryptlvm scenario for the UI changes in the Expert Partitioner

2020-11-23 13:05 - syrianidou\_sofia

<b>Status:</b>	Rejected	<b>Start date:</b>	2020-11-23
<b>Priority:</b>	High	<b>Due date:</b>	
<b>Assignee:</b>	riafarov	<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	SLE 15 SP3		

#### Description

### Observation

openQA test in scenario sle-15-SP3-Online-aarch64-cryptlvm@aarch64 fails in [encrypt\\_lvm](#)

### Test suite description

Maintainers: okurz

Conduct installation with encrypted LVM selected during installation. Generated disk image used in downstream jobs.

(crypt-)LVM installations can take longer, especially on non-x86\_64 architectures.

YAML\_SCHEDULE=schedule/yaml/cryptlvm/cryptlvm\_sle.yaml

### Reproducible

Fails since (at least) Build [88.1](#)

### Expected result

Last good: [85.2](#) (or more recent)

### Further details

Always latest result in this scenario: [latest](#)

#### History

##### #1 - 2020-11-23 13:05 - syrianidou\_sofia

- Project changed from openQA Tests to qe-yast

- Category deleted (Bugs in existing tests)

##### #2 - 2020-11-24 13:50 - riafarov

- Target version set to SLE 15 SP3

This test uses guided partitioning, so no change in the UI there. It failed because proposal overview was not updated, here [https://openqa.suse.de/tests/5056652#step/encrypt\\_lvm/12](https://openqa.suse.de/tests/5056652#step/encrypt_lvm/12) we can see that it worked fine in the end. So it's just test instability.

##### #3 - 2020-11-24 13:51 - riafarov

- Parent task set to #76861

##### #4 - 2020-11-24 13:51 - riafarov

- Parent task deleted (#76861)

##### #5 - 2020-12-15 09:56 - riafarov

- Status changed from New to Rejected

- Assignee set to riafarov

Didn't fail in the last 20+ days, so rejecting. In case we face it again, we should act on this.
