Target version:	SLE 15 SP3			

Description

Observation

openQA test in scenario sle-15-SP3-Online-x86_64-yast2_gui@64bit fails in
yast2_storage_ng

Test suite description

Maintainer: zluo, riafarov

Test for yast2 UI, GUI only. Running on created gnome images which provides both text console for ncurses UI tests as well as the gnome environment for the GUI tests.

We can use perl code, need just to add setup part including port forwarding.
After https://github.com/os-autoinst/os-autoinst-distri-opensuse/pull/11643 we still need to setup libyui for ppc64le and enable this test there.

Reproducible

Fails since (at least) Build 85.2

Expected result

Last good: 78.1 (or more recent)

Further details

Always latest result in this scenario: latest

This is an autogenerated message for openQA integration by the openqa_review script:

This bug is still referenced in a failing openQA test: yast2_gui@ppc64le-2g
https://openqa.suse.de/tests/5189346

To prevent further reminder comments one of the following options should be followed:

1. The test scenario is fixed by applying the bug fix to the tested product or the test is adjusted
2. The openQA job group is moved to "Released"
3. The label in the openQA scenario is removed
