[qe-sap][qem][HA] test fails in check_cluster_integrity

2020-12-04 08:36 - dzedro

Status:	New	Start date:	2021-01-21
Priority:	Normal	Due date:	
Assignee:	jadamek	% Done:	100%
Category:	Bugs in existing tests	Estimated time:	0.00 hour
Target version:			
Difficulty:			
Description			
Observation			
openQA test in scenario sle-12-SP4-Server-DVD-HA-Updates-x86_64-qam_ha_rolling_upgrade_migration_node01@64bit fails in check_cluster_integrity			
Test suite description			
Maintainer: QA-CSS team, test a rolling upgrade in a cluster from SP -1. 1- Use a qcow2 from hdd/fixed. 2- Update the system. 3- Configure a cluster. 4- Migrate one node to next SP. 5- Update the package targeted by the QAM if we are doing QAM. 6- Check cluster integrity and do the same for the second node.			
Reproducible			
Fails since (at least) Build 20201204-1 (current job)			
Expected result			
Last good: 20201203-2 (or more recent)			
Further details			
Always latest result in this scenario: latest			
Subtasks:			
action # 88117: [qa-sap][qem][qe-asg][HA] test fails in check_cluster_integrity			Rejected

History

#1 - 2020-12-22 07:31 - okurz

This is an autogenerated message for openQA integration by the openqa_review script:

This bug is still referenced in a failing openQA test: qam_ha_rolling_upgrade_migration_node01
<https://openqa.suse.de/tests/5203735>

To prevent further reminder comments one of the following options should be followed:

1. The test scenario is fixed by applying the bug fix to the tested product or the test is adjusted
2. The openQA job group is moved to "Released"
3. The label in the openQA scenario is removed

#2 - 2020-12-22 07:34 - openqa_review

This is an autogenerated message for openQA integration by the openqa_review script:
