

openQA Infrastructure - action #80824

o3: Migrate from SuSEfirewall2 to firewalld

2020-12-08 08:38 - okurz

| | |
|--|----------------------------------|
| Status: Workable | Start date: 2020-12-08 |
| Priority: Low | Due date: |
| Assignee: | % Done: 0% |
| Category: | Estimated time: 0.00 hour |
| Target version: future | |
| Description | |
| Motivation | |
| <p>SuSEfirewall2 is out of support or going out of support hence we should switch to firewalld. I realized that on o3 we are still running with SuSEfirewall2</p> | |
| Acceptance criteria | |
| <ul style="list-style-type: none">• AC1: SuSEfirewall2 on o3 is removed• AC2: firewalld is running on o3• AC3: common openQA tasks still work, e.g. developer mode of running openQA test | |
| Suggestions | |
| <ul style="list-style-type: none">• Find out what rules are currently needed• Install firewalld, at least enable ssh before enabling to prevent lockout• Enable firewalld• Remove SuSEfirewall2• Check that common openQA tasks still work, e.g. developer mode of running openQA test | |
