

openQA Project - action #81038

Avoid using Mojolicious::Routes::Route::route which is DEPRECATED in favor of Mojolicious::Routes::Route::any in asset pack

2020-12-14 09:42 - mkittler

Status:	Resolved	Start date:	2020-12-14
Priority:	Normal	Due date:	2020-12-30
Assignee:	mkittler	% Done:	0%
Category:	Concrete Bugs	Estimated time:	0.00 hour
Target version:	Ready		
Difficulty:			
Description			
<ul style="list-style-type: none">AC0: The function is no longer used in Mojolicious/Plugin/AssetPack.pm which is provided by the perl-Mojolicious-Plugin-AssetPack. Likely Mojolicious::Routes::Route::any should be used instead.AC1: A fixed version of the perl-Mojolicious-Plugin-AssetPack package is provided for Tumbleweed and within our devel repos for Leap.			
It looks like a new version of https://github.com/jhthorsen/mojolicious-plugin-assetpack containing the change for AC0 has already been released since 3 days so we just need to test that and push the packaging.

History

#1 - 2020-12-14 12:03 - mkittler

- SR for DLP has been accepted, still waiting for <https://build.opensuse.org/request/show/855720>
- In the meantime, I'm trying to add a workaround in <https://github.com/os-autoinst/openQA/pull/3636>

#2 - 2020-12-14 22:07 - okurz

- Category set to Concrete Bugs
- Status changed from New to Feedback

<https://build.opensuse.org/request/show/855720> is accepted. Likely we can just wait for the next Tumbleweed snapshot to be published – maybe tomorrow.

#3 - 2020-12-15 10:23 - mkittler

- Category deleted (Concrete Bugs)
- Assignee deleted (mkittler)
- Target version deleted (Ready)

Seems like they've created a bugzilla ticket: https://bugzilla.opensuse.org/show_bug.cgi?id=1180048

So the updated version of AssetPack is not sufficient. I'll try to install it locally and check what's left to do.

- Related to action #81068: openQA tests fail on OBS Tumbleweed added

#5 - 2020-12-15 10:30 - mkittler

- Category set to Concrete Bugs
- Status changed from Feedback to In Progress
- Assignee set to mkittler
- Target version set to Ready

#6 - 2020-12-15 10:41 - mkittler

PR for (hopefully all) remaining warnings: <https://github.com/os-autoinst/openQA/pull/3644>

#7 - 2020-12-16 04:08 - openqa_review

- *Due date set to 2020-12-30*

Setting due date based on mean cycle time of SUSE QE Tools

#8 - 2020-12-16 20:46 - okurz

<https://github.com/os-autoinst/openQA/pull/3644> merged

#9 - 2020-12-17 12:38 - mkittler

- *Status changed from In Progress to Resolved*

The PR has been merged and builds succeed again.
