Description

Observation

gnome_music is failing sporadically. Bounces back after retriggering.

openQA test in scenario sle-15-Server-DVD-Incidents-x86_64-qam-allpatterns+addons@64bit fails in [gnome_music](#)

Test suite description

All modules defined in SCC_ADDONS
#20201124: added chrony-pool-openSUSE due to 15SP1 QU5 failure <https://openqa.suse.de/tests/5060854>

Reproducible

Fails since (at least) Build [:17707:alsa-utils](#) (current job)

Expected result

Last good: [:17720:release-notes-sles](#) (or more recent)

Further details

Always latest result in this scenario: [latest](#)

History

#1 - 2021-01-07 12:28 - tjyrinki_suse

- Subject changed from [qem][maint][gnome_music]test fails in gnome_music - unstable test to [qe-core][qem][maint][gnome_music]test fails in gnome_music - unstable test
- Status changed from New to Workable
- Priority changed from Normal to Low
- Start date deleted (2020-12-23)

#2 - 2021-01-11 11:09 - zluo

- Assignee set to zluo
- Priority changed from Low to Normal

take over.

#3 - 2021-01-11 14:17 - zluo

installation failed at moment, so this blocks other tests,
installation medium issue, check this for sure:

<https://openqa.suse.de/tests/5268215>

#4 - 2021-01-12 14:00 - zluo

- Status changed from *Workable* to *In Progress*

I think this is a issue with low performance with worker since the tests are quite long and repeat send_key can help in most cases:

```
send_key_until_needlematch("generic-desktop", 'alt-f4', 5, 5);
```
